

2008 Music Program **BLACKOUT!**

Memphis Sound Drum and Bugle Corps's 2008 program will explore the varying states of consciousness and their instabilities. The human unconscious mind can produce wildly varying visions and emotions, some real and some clearly not. Through selections from Andrew Lloyd Weber, Bartok, and Whitacre, the audience will consciously experience the unconscious visions and sounds of psychosis, euphoria, and lucid dreams.

Please Post this Flyer in Your Band Room:

Experience of a lifetime and more fun than you can imagine!
There are still a few openings in the BRASS Line.
